## Adaptations and habitats activity 2:

### Create your own Grassland Habitat!

Lots of animals live in grasslands from harvest mice to royal pythons! Can you think of any other animals that live in a grassland habitat?

Pick an animal that lives in a grassland habitat, then find an old shoe box and create your own mini grassland habitat! You can use craft materials or materials from your garden. Stick a photo below:

Don't forget to share your grassland habitat on our Facebook page!
