Activity 3 Classification

How do we Breathe?

The animals below all live in and around the water but they are all very different. One of the big differences is how they breathe! Fill in the following sentences using these animals.

“I breathe through my skin and can use my lungs too, I am a _____.”

“I breathe using my lungs like you do but am good at holding my breath, I am a _____.”

“I breathe through my gills, I am a _____.”

Fish

Frog

Alligator

Name:

Date:

As we learnt in the first classification video, we can sort or classify animals in lots of different ways including by how they breathe. Can you list some other animals which breathe using their:

<u>Lungs</u>	<u>Skin</u>	<u>Gills</u>

Name:

Date:

Using your lists above. Can you sort these animals into reptiles, amphibians, fish or 'none of these'!

<u>Reptiles</u>	<u>Amphibian</u>	<u>Fish</u>	<u>None of these</u>
