Activity 8 – Adaptations & Habitats

Draw Your Own Habitat

It's time to create your very own habitat! You can take inspiration from real habitats or let your imagination go wild and create something brand new, like a habitat from another planet!

- What will you name your habitat?
- Is your habitat hot or cold?
- Will your habitat have trees? What kind?
- Will it have water? Rocks? Sand? Soil? Grass?
- What animals will live in your habitat? What adaptations will they need to survive there?

Don't forget to send us a picture of your completed habitat! We'd love to see what you come up with!
