

How Can I Help?

Animals need protecting from threats like habitat destruction, pollution, climate change and unsustainable farming e.g. for palm oil. But what can we do to help? Draw you or your family in the space and then write some ideas of how you can help protect nature in the speech bubbles! Small changes like recycling, planting a tree or walking more instead of driving can make a big difference! What can you come up with?

Why not put your poster up on the wall so everyone can see it! What ideas can they add to it?
