

# Here Be Dragons!

There are lots of animals called 'dragons' in the world, along with our bearded dragons and water dragons! Use their features to design the ultimate dragon on the next page!

**Dragonfly:** fast, powerful wings for flight, amazing eyesight for spotting prey.

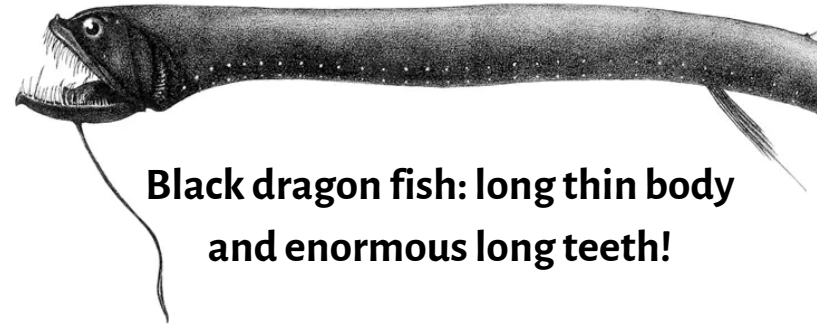

**Pink dragon millipede:** bright, sharp spines down its body!

**Komodo dragon:** huge body size, thick, hard scales and leathery skin, strong, sharp claws and fierce bite!

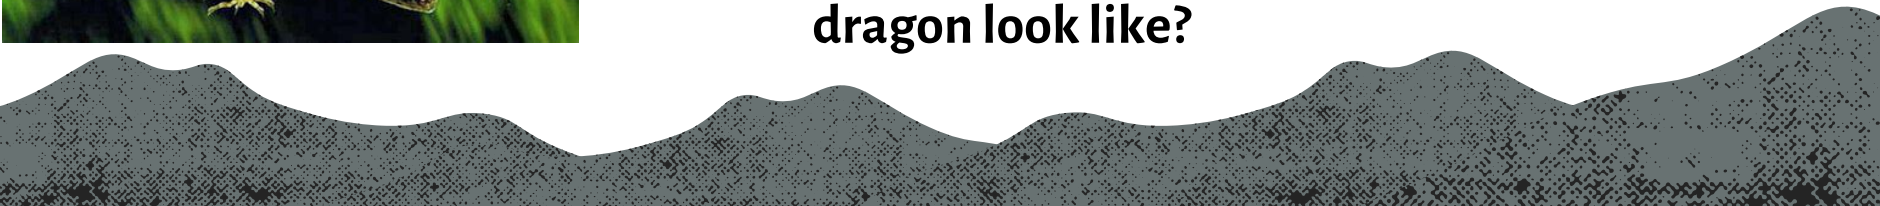

**Draco lizard:** Flaps of skin for gliding through the air!

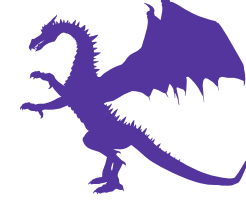

**Black dragon fish:** long thin body and enormous long teeth!

What will your dragon look like?

# Here Be Dragons!

**Design your dragon below! Is it attacking the castle? Can it fly? How big is it? Be creative! If you need more inspiration, there are more dragons to learn about! Research dragonet fish, leafy seadragons or blue dragon nudibranchs!**

**Send us your dragon picture!**
