

And a 'Capy' New Year!

Our capybaras enjoyed exploring the snow before heading back into the warm, but you won't find snow in the Amazon rainforest where they are found naturally. Carol the capybara is telling her cousin Carla in the Amazon what snow is like. Can you help her finish her letter? Why not draw a snowy scene to go with the letter?

Dear Carla,
Snow is strange! It feels so _____.
It makes the ground turn _____.
Snow is fun, you can make _____ or
even _____. It's very fun!
It falls from the _____, just like the rain.
I think snow is _____.
Merry _____!
Love from Carol x

Send us your finished letter!
